ABOUT ME

High-agency Senior Cloud Software Engineer with 10+ years of experience bridging backend development and scalable cloud infrastructure. Specialized in building Internal Developer Platforms (IDPs) and self-service automation using Python, Boto3, and FastAPI. Proven expertise in architecting event-driven Serverless architectures (Lambda, EventBridge, DynamoDB) and Kubernetes (EKS) workloads. Extensive experience refactoring container-based PoCs into production-ready cloud-native services while maintaining strict Governance and Security standards (OIDC, IAM) within large-scale financial environments (Several AWS accounts). Experience in production with Infrastructure as Code (Terraform) and GitOps (ArgoCD), focused on accelerating developer velocity and reducing operational toil.

WORK EXPERIENCE

Senior Platform Engineer 2020 - Present
Itaú Unibanco

- **Enterprise Governance at Scale:** Orchestrated infrastructure across multiple AWS accounts using CloudFormation StackSets and Terraform, ensuring 100% compliance with security baselines and multi-AZ best practices.
- **High-Throughput Serverless Architecture:** Designed and maintained Serverless platforms handling 100+ RPS using AWS Lambda and Step Functions, reducing operational costs by 30% compared to traditional ECS clusters.
- **Observability & Reliability:** Integrated Datadog APM via DaemonSets and sidecars across EKS and Fargate, enabling unified tracing and log correlation that reduced Mean Time to Recovery (MTTR) by 40%.
- **Automated Lifecycle Management:** Engineered Python-based automation for RDS and DynamoDB engine upgrades, eliminating 'Extended Support' security risks and ensuring 99.9% platform uptime.
- **Developer Velocity:** Built standardized GitHub Actions pipelines and Terraform modules, accelerating feature delivery cycles for 50+ internal engineering teams.

Software Engineer / AWS Consultant 2019 - 2020
NTT Data

- **Legacy Modernization:** Refactored mission-critical financial systems from legacy code to Node.js, implementing hexagonal architecture to improve maintainability and scalability.
- **Database Optimization:** Optimized DynamoDB schemas for high-traffic retail projects (Riachuelo), reducing read/write costs by 25% through efficient query patterns and index management.
- **Messaging & Integration:** Integrated distributed systems using Kafka and RabbitMQ, ensuring reliable event-driven communication for large-scale client projects.

EDUCATION

Technologist in Systems Analysis and Development

FATEC-São Paulo/Brazil

Graduated in 2014

SKILLS

- AWS
- Azure
- Terraform
- Linux
- NodeJS
- Python
- Github Actions
- Docker
- Kubernetes
- ArgoCD
- Datadog
- FastAPI
- NestJS
- Boto3

LANGUAGES

- ENGLISH (C1)
- PORTUGUESE (Native)
- SPANISH (A2)

WORK EXPERIENCE

Software Engineer

2019 - 2019

JBQ GLOBAL

- **Architectural Restructuring:** Led the redesign of Extrafarma's wholesale backend using Node.js and AWS Lambda, solving critical scalability bottlenecks during peak demand periods.

Programming Engineer

2018 - 2019

Trade Vale Seguros

- Developed insurance scoring systems using .NET Core and Azure SQL, focusing on high-accuracy data processing and intuitive UI/UX.

JR. WEB Developer

2018 - 2018

Big Solutions

- Responsible for developing back-end solutions for car stores using .NET Core, ensuring the creation of efficient and scalable systems.
- Use of SQL in Azure Cloud for data management and storage, ensuring the security and integrity of information.

Program Analyst

2013 - 2018

Ad Instar Informática

- Responsible for developing retail desktop systems using .NET C# Full, creating robust and scalable solutions to meet the needs of the sector.
- Use of SQL Server for data management and storage, ensuring the integrity and security of information.

COURSES AND CERTIFICATIONS

- Terraform Associate
- Certified Kubernetes Application Developer
- Platform Engineer Practitioner
- AWS Developer Associate
- AWS SysOps Associate
- AWS Solutions Architect Professional
- Datadog Fundamentals
- OpenJS Node.js Developer
- AWS AI Practitioner
- AZ-900
